EDUCATION

- Brahmdevdada Mane Institute of Technology** Solapur, India
B.Tech in Computer Science and Engineering — GPA: 9.97/10 (Topper) 2022 – 2026
- Walchand College of Arts and Science** Solapur, India
HSC (PCMB) — Percentage: 72.33% 2020 – 2022
- Arihant English Medium School** Solapur, India
SSC — Percentage: 93.20% 2020

SKILLS SUMMARY

- Programming Languages:** JavaScript , Java , Python, SQL
- Frameworks & Libraries:** React.js, Tailwind CSS, Node.js, Express.js, Spring Boot
- Application Development:** React Native, Android Application Development
- Databases & Tools:** MongoDB, PostgreSQL, MySQL, SQLite, Docker, Git
- Platforms & Cloud:** Linux, Windows, AWS, Google Cloud Console, Google Maps API, Vercel, Render
- Soft Skills:** Leadership, Problem Solving, Public Speaking, Team Management, Time Management

EXPERIENCE

- SMIT Pvt. Ltd.** On-Site + Remote
Software Developer Intern (Full Stack) June 2025 – Dec 2025
 - SolapurMall – Large-Scale Business Directory Platform:** Redesigned and rebuilt a production-grade web directory hosting **5000+ business listings** using React.js, Spring Boot, and MySQL. Improved page load performance by **35%**, optimized REST APIs, and deployed the system for live public use.
 - PrintAnywhere – Cloud-Based Printing Platform:** Developed scalable backend services using Spring Boot and MySQL, designing **20+ REST APIs** for order management and file handling. Reduced backend error rates by **30%** through structured debugging and validation.
 - Uniform Manufacturing Management System:** Led a **4-member development team** to build a full-stack ERP-style system using Spring Boot, React.js, and PostgreSQL. Designed database schemas with **15+ entities**, implemented role-based access, and ensured seamless frontend-backend integration.

PROJECTS

- ShareMyRide (SMR) – Ride Sharing Platform:** Built a secure ride-sharing platform enabling seat sharing for inter-city and intra-city travel. Implemented authentication, ride booking, real-time updates, driver/passenger roles, and Google Maps integration. Achieved scalable handling of **100+ simulated concurrent users**. Tech: React Native, React.js, Node.js, Express.js, MongoDB, Google Maps API. **View**
- EzTurn – Smart Queue Management System:** Developed a real-time digital queue system reducing physical wait times by **up to 60%**. Implemented dynamic reporting-time calculation based on service rate and queue length. Designed a multi-sector scalable architecture for retail and service-based businesses. Tech: Java Spring Boot, React.js, PostgreSQL, REST APIs. **View**

HONORS AND AWARDS

- Winner, **Gold Medal**, College Chess Competition (2024)
- Runner-Up, **Bronze Medal**, College Chess Championship (2025)
- Participant, Avishkar Innovation Competition (2024, 2025) – AI Projects: **AiTut, Data Through Call**
- Qualified Round I, **DIPEX 2025** – District Level Project Exhibition
- Smart India Hackathon (SIH) – Submitted proposal under Smart Education domain

PUBLICATIONS

- DigiU – Human Digital Twins: An AI-Driven Framework:** Published in *International Journal of Advanced Research in Science, Communication and Technology (IJAR SCT)*, Dec 2025. Proposed an AI-powered Human Digital Twin framework using LoRA fine-tuning, RAG, and multimodal learning to replicate personality and decision-making behavior. Applications include personalized education, mentoring, and digital identity preservation. Implementation is on its way now. soon be ready for demo. **(Work in Progress)** **View Publication**
